

Textbook Coordinators' Association of Texas

**TCAT's mission: To train and assist
textbook professionals so they can help the
students of Texas.**

TCAT offers the only regular training for textbook coordinators in public school districts or open enrollment charter schools. Throughout the year, TCAT acts as a clearing house for coordinators who have questions or problems with their ordering, warehousing, delivery or inventory. Veteran coordinators offer their expertise and knowledge to help fellow TCAT members work smoothly with one goal in mind - getting the materials to the kids.
